CALIFORNIA ROSE CO. POMONA, CAL.
HOW TO PLANT AND CARE FOR ROSES

If convenient to do so, it is a good plan to plant late in the day or during cloudy weather. To begin with, have your ground well prepared; good sized liberal holes dug to accommodate the roots without cramping or bending; make the hole considerably larger than necessary and then partially fill in with finely pulverized soil or mellow soil, so as to afford a good mellow surrounding for the roots to start from; use of good surface soil or decayed wood as something of this nature is good for the filling in and to place about the roots, being a little richer and more mellow than the soil removed in digging.

Now remove all packing from the plants, moss, etc., from roots. Handle your plants in a shady spot and protect from dry winds; keep the roots covered well with moist soil after unpacking until ready to plant. Next, prune your roses severely, regardless of how small it leaves them for planting; remove all small weak wood, leaving only two or three strong and not too long canes of the hardest wood and strongest eyes, shaping the plant to a symmetrical form; with the Hybrid Perpetuals, they should be trimmed back to about two canes (the strongest and hardest wood) and not over from four to six inches high. It will pay you to use the knife not sparingly; your plants will come on quicker and faster and be larger in a few weeks than if left unpruned, and they stand a much better chance of living. Having properly attended to the tops, attend to the roots; it is generally safe to plant the roots 23 to 24 inches deep, and if any roots above any bruises or breaks; at every cut the roots when planted will at once throw a good supply of fibers. Use a sharp knife or pruning shears for all pruning work. Now set your plant in the hole prepared for it, sitting in with the hand finely pulverized soil previously prepared, slowly and press down firmly as you go so that each root and part of root may come in firm contact with the soil; continue this operation in layers until covered to within a little less than the final desired depth, leaving just enough of the basin to hold water; now water liberally to thoroughly settle the soil about the roots; after well drained into the ground, complete filling up the hole, leaving the plant at about the same depth that it stood in nursery and work up the surface soil nice and loose. If a few inches of mulch is now applied about the plants (old litter, leaves, leaf mould, clippings from the lawn) it will keep the ground of a more even temperature and prevent drying out; this plan is much preferable to continual watering. No manure of any kind should be used in the soil, especially if it contains a large amount of ashes. Plants can be applied from the top after plants in full foliage. If planting is done in very warm weather, it is a good plan to shade the plants for a few days, thus helping to prevent the tops from starting before the roots hold the soil of the hole. If you are troubled with alkali in your soil, you should prepare the proper drainage before planting; this may be done by making a good drain just before the permit of filling in at the bottom with eight inches to a foot of cobble stones directly under where your roses are to be planted; this makes excellent drainage and will prevent the alkali rising.

Plant your roses where they will have plenty of sunshine: where you can control watering: where you can properly cultivate and where a good circulation of air is to be had; give them the best of cultivation. Do not expect them to produce perfect blooms even every week day and twice on Sunday; they must have some rest or they get "flagged out" like the rest of us; right here is where so many err in growing in this state; plants should be rested two or three months of the year: this can be best done during latter part of the summer months of the year (when bloom is poor at best) by stopping all fertilizers: the nurse from this time, allowing them to be absolutely quiet in growth, and if the foliage withers and drops, so much the better; just keep the wood from shriveling, that's all; after thus properly rested, go after them with the pruning shears, removing all scraggly, weak and small wood, and shaping your plant up—don't be afraid of over doing it—cutting the Hybrid Perpetuals badly outlined for first pruning out: this done, if you are ready to start them up, give them a good dressing of well-rotted cow manure and a thorough soaking of the ground. Properly done you will be surprised to see how promptly and vigorously they will awake and the quality of bloom they will hand you.

If you water your roses, be sure to water your rose; keep the ground mulched, or at least, the soil worked up nice and loose, and water, say once in ten days or a month, according to nature of soil, etc.; over-watering only produces mildew, rust and disease; water in the morning—never at night. Climate, conditions, sudden changes, continuous foggy weather, etc., will sometimes produce mildew, etc., regardless of the care taken. You can remove it by digging it off, but to prevent it, be sure to get the roots prepared, apply a liberal dressing of lime and ash and a dressing of wood ashes applied when foliage is damp will check mildew if applied as it first appears. "Black Spot" and red rust are also caused by over watering or unfavorable weather; foliage once thus infected cannot be cured and it should be removed and burned. Aphis and Green Fly is generally prevalent during the spring months; these are not serious and regardless of the many "remedy"s which can be applied, such as soap soaps, kerosene emulsion, tobacco juice, etc., they will return for the time being and keep coming until the little red lady bugs devour them. The most simple remedy we know of is to use a good strong spray of water from the hose, which easily washes them off; repeat as often as necessary.

TWO ROSE PESTS

Rose bushes are much injured every year by green lice or aphids and the so-called Rose "thrips" or Rose leaf hopper. Both are sucking insects and may be readily controlled by early spraying with a contact insecticide such as an ivory soap solution (five cent cake to eight gallons of water), a whale oil soap solution (one pound to seven gallons of water), the standard kerosene emulsion, the "Virginia" formula, the "chemical" formula, one of the tobacco products, etc.

There is a great advantage in spraying Rose bushes early, since this destroys the plant lice before they become abundant, cause material injury, and so curl the leaves as to make spraying almost ineffective. Early treatment is especially important in the case of leaf hoppers, since the pale green, inconspicuous, sluggish young, hatch from eggs concealed in slight blisters in the bark and feed on the under side of the developing leaves. They are easily killed at this time by throwing any one of the above named preparations on the under side of the foliage, especially the lower leaves.
FIELD-GROWN: OWN ROOT
ROSES

OPEN GROUND CULTURE EXCLUSIVELY

Our Motto: "Direct from Grower to Planter"

CALIFORNIA ROSE CO.
Incorporated 1901
TO GROW ROSES FOR THE PEOPLE
THE ONLY EXCLUSIVE ROSE CONCERN IN THE WORLD
1915 - 1916
POMONA, LOS ANGELES COUNTY
CALIFORNIA
SPECIAL DIRECTIONS TO CORRESPONDENTS AND INTENDING PURCHASERS

Our roses delivered to your home, absolutely no cost to you for transportation if one dozen or more ordered.

After a perusal of our catalogue we believe that you will not have the slightest difficulty in coming to the conclusion not only that we are entitled to your trade in Rose Bushes, but as well that you really cannot afford to buy elsewhere.

Our business is Roses—nothing else—fine, sturdy field-grown stock: we are growing them in enormous quantities, and we depend upon trade all over the United States; therefore we have determined to place all our friends and customers on a basis of living next door to us by delivering our Rose Bushes to them at their homes anywhere in the United States without cost to them for transportation. As our prices are not raised and are positively as low as good, reliable, field-grown stock has ever been sold anywhere, you are bound to realize that the cost of transportation comes out of our pockets.

TERMS—Cash must invariably accompany orders. Our prices are very low—as low as consistent with honest treatment and first-class stock—and we cannot under any circumstances open an account or do a credit business regardless of how responsible a customer may be. Our liberal terms of prepayment and low prices will not admit of it.

C. O. D. ORDERS—We cannot send goods “collect on delivery” unless one-half the amount accompanies the order, as a guarantee of good faith, and even then the buyer must pay return charges on money. Therefore it is undesirable. We make no charges for packing, boxing or delivery to express office.

WHEN TO ORDER—Our shipping season begins in November and we ship every day up to the 1st of April. We aim to ship an order the same day that it is received. Orders are filled in rotation as received, or according to when ordered shipped. No stock is reserved. Stock thus procured direct from the growers, with no chance for deterioration or mixing of varieties, and in the highest state of freshness and vigor, is sure to give the best results and satisfaction.

SUBSTITUTIONS—As a rule we do not substitute unless given permission to do so; occasionally out of a large list of varieties called for a variety may be sold out, and on so small an item it is generally better to make a good substitution than to send order this small item short. In ordering late in the season it is always best to name a second choice—but it always is customer’s privilege to order “no substitutions.” We rarely have to substitute unless at the end of the season, but it is best to provide for the contingency.

MAKING OUT AN ORDER—Please write out all orders plainly. Positively be sure to sign your name to the order, and as surely give your post-office address, county and state; also express office, if different from post-office. Please keep a copy of your order, so as to check up stock on arrival. Make remittances by any of the following methods: Bank draft on Los Angeles, San Francisco, Chicago, St. Louis, New York, Post-office or Express Money order; or by registered letter if foregoing are not obtainable. Please do not send stamps in payment of an order, as we have all we can use. We cannot accept personal checks for sums less than $5.00. (Please procure P. O. or Express Money Order.

SAFE ARRIVAL GUARANTEED—We guarantee all stock to reach customers in good condition. Any just complaint should be made at once upon receipt of shipment. We ship to nearly every state in the Union and with our twenty years’ experience in packing and shipping, we can safely agree to deliver stock to the most distant points in good condition. In case of unreasonable delay in arrival of stock ordered, notify us and send copy of order, stating when originally mailed and by what means remitted and amount.

GUARANTEE OF STOCK—We guarantee all stock sent out to be true to name to the extent that we will replace free any article which does not so prove. Every rose bush shipped between December 1st and March 15th we guarantee to grow, replacing without charge for the plants all stock which fails to grow, provided such loss is reported to us within two months from time of shipment.

This offer is NOT EQUALED BY ANY HOUSE IN THE UNITED STATES.

Address all orders and make all remittances payable to

CALIFORNIA ROSE COMPANY.
Pomona, California.

SEE PRICE LIST, PAGE 23
SOME OF THE REASONS WHY WE ASK YOUR TRADE IN ROSES

Firstly, we claim to be able to give you better value for your money than you can obtain elsewhere.

We offer you large Field-grown Plants which have bloomed profusely this season.

Considering the quality and grade of our field stock, the fact that we guarantee our field grown plants to grow and be true to name, and that we deliver the goods to you without cost for transportation, our prices are fully 50 per cent lower than any house in the United States.

Our business is growing and selling roses—not a general business. We occupy a position by ourselves, as we are the only house throughout the country who can claim the distinction of being exclusive Rose Growers. If you are about to purchase a valuable piece of jewelry, you naturally go to the exclusive Jewelry establishment, not to the department store handling a few odds and ends of all lines. It is reasonable to assume that you will get better value by so doing. This is a good rule to apply to other lines of purchase.

Our men in direct charge of propagating and growing roses have had from fifteen to twenty-five years’ experience in the work.

We claim to have growing more Roses than any house west of the Mississippi River, and of Field-grown of the best Tea and H. T. sorts, more than any concern in the United States. We also claim to have the only large assortment including the best Tea and H. T. varieties, of exclusively Field-grown Roses, on their Own Roots, in the United States. We believe we can, therefore, justly claim to be the Headquarters for Roses.

FIELD-GROWN ROSES

Our field-grown roses make a large growth and many sorts are cut back somewhat before shipping. Roses should generally be cut back when transplanted; it is the new wood—the new growth—which produces the flowers, and if the bush is well pruned each season, allowing the whole strength of the roots to be put forth in producing this new growth, with not too large a top to work on, the quicker plenty of blooms will be obtained and the quality improved. Our roses bloom before being sent out, and when transplanted will bloom again practically as soon as in full foliage. Tender roses, nursery grown, are out of the question in the East, as the climate will not permit of keeping them in the nursery rows during the winter.

WHY NOT GET YOUR NEIGHBORS TO JOIN YOU AND MAKE UP A CLUB ORDER?

Why not get your SCHOOLS and School Children interested and work up large CLUB ORDERS? (The Schools of Los Angeles County purchased over one hundred thousand rose plants from us for one planting season.) Write for special prices on lots of 500 to 1000 roses to be handled in this way.

HAVE YOU A ROSE SOCIETY IN YOUR CITY?—IF NOT, WHY?

Write us for particulars about starting a Rose Society, why it should be done,—and ask for a copy of Constitution and By-Laws.

TRUTHS

KEEP IN MIND the fact that we give you large field-grown bushes which have been in full bloom all summer and that this stock has never seen the inside of a green house.

WE PAY THE EXPRESS CHARGES to your station; you simply pay the price charged for just ordinary roses, but get something of value and without cost for transportation.

WE GUARANTEE safe arrival.

WE PAY THE EXPRESS
CALIFORNIA FLOWERS

AMIRAL DEWEY, H. T. 
(J. H. Taylor, 1899)
Delicate blush pink, shading to white, globular, expanding into a full flower. A sport from Madame Caroline Testout.

AGRIPPINA 
(Bourbon)
(Coqueran, 1839)
An old, well-known sort. Pretty growth; best of foliage. Very profuse bloomer; color, dark red; lasting and fragrant.

AMERICAN BEAUTY, H. R. 
Too well known to require a lengthy description. American Beauty in its prime is simply grand—a grand rose, as we all know and appreciate. In some sections, however, it does not prove a first-class garden rose and wherever grown to produce satisfactory results it requires skilled treatment and handling.

ANNY MUELLER, P. 
(Schmidt, 1907)
Introduced as the “Pink Baby Rambler.” Good for bedding and is entirely hardy.

ANNE DE DIESBACH, H. R. 
(Larcharme, 1856)
(Glory of France)
Well known; a good hardy variety. Flowers extremely large, full and fragrant; color, a beautiful shade of carmine rose.

ANTOINE ROIVRE, H. T. 
(Fernet-Ducher, 1906)
A new rose of much merit and value for garden culture; a handsome, clean and vigorous grower and profuse bloomer. Color, rosy-flesh, on a yellow ground, often shaded with a border of reddish; flowers of extra large size, delicately formed and moulded and open in the most charming manner, petals reflexing and rolling back not unlike a Camelia blossom.

ANDRE CAMON, H. T. 
(Fernet Ducher, 1909)
Deep rose and carmine; bronze foliage.

AUGUSTINE GUINOISEAU, H. T. 
(White La France Guinoiseau, 1889)
A delicate soft flesh, at times almost pure white; flowers large, full, of good substance and highly fragrant.

AVIATEUR BLEORIT, Wich. Hybrid. 
(Faque et Fils, 1910)
The finest yellow in the Wichuriana family; vigorous climber; saffron yellow; center, golden; bloom produced in trusses; flowers full; medium size.

AMERICAN PILLAR.
Hardy, Climbing Polyantha 
(Conard, 1909)
A single flowering variety of desired beauty and merit; flowers three to four inches across of a lovely shade of apple-blossom pink with a clear white eye and cluster of yellow stamens; lasting both on the plant and when cut for decorative purposes. A strong climber, branching freely, highly attractive foliage, seemingly free from disease.

BARON DE BONSTETTEN, H. R. 
(Liabaud, 1875)
A large flowering variety; very double and full; a rich dark red; very fragrant.

BETTY, H. T. 
(A. Dickson & Son, 1905)
Coppery-rose, shaded golden-yellow; large, full and admirably formed flower and beautifully shaped buds. Of sterling merit.

BRIDESMAID, T. 
(Moore, 1883)
Of American origin; a sport of C. Mermet, possessing all the good qualities of the parent variety, but surpassing it in color, being a more deep, brilliant pink, and constant in color under all conditions. Flower very large, full, perfect shape, fragrant and a constant bloomer.

BABY RAMBLER, P. 
(Levasseur, 1909)
(Madame Norbert Levasseur) 
This new dwarf ever-blooming Rambler has created a great commotion throughout the whole country, and is a decidedly sensational variety. It bloomed all the time, its clusters of rich crimson flowers completely hiding the whole plant.

BURBANK, Bourbon 
(Burbank, 1900)
A hardy strong and vigorous grower, bushy in habit; flowers medium size, full and fragrant; color, a pleasing shade of pink.

BRIDE, T. 
(James Taplin, 1885)
A sport from Catherine Mermet. The buds are extremely large, most completely shaped and moulded, very long and artistically pointed; color, white; in this immediate section and the extreme South the outer petals are tinged with rose.

BRITISH QUEEN, H. T. 
(McGredy, 1897)
Awarded the Gold Medal of the National Rose Society. Highly recommended by the producers as one of the superb white roses. With us there is often a slight tinge of pink on outer edge of petals; of good size and splendid form and substance.

BESSIE BROWN, H. T. 
(A. Dickson & Son, 1899)
Of strong, upright growth, good foliage and one of the heaviest bloomers. Color, white, tinged flesh; flower very large, extremely full and double, of great substance, and fragrant.

BARBOU JOB, Bourbon. 
(Nabonnand, 1877)
One of the most showy of roses. The growth is strong and robust that it is almost a climber; hardy, foliage laveral, large and leathery and resists disease; flowers are very large, saucer shape; semi-double; color, deepest velvety crimson; extremely showy for decoration.

BUTTER-CUP, T. 
(California Rose Co., 1906)
This is a new climbing rose produced here in Southern California. A seedling from some unknown sort; of good climbing habit; pretty, light-colored foliage; a free bloomer; flowers of nice size, very prettily shaped and moulded; color, canary-yellow; very delicate.

BEAUTY OF GLAZENEN.
Commonly called “Gold of Ophir” Native of China (Fortune, 1845)
A distinct and grand climber; of very rapid growth and not subject to disease; color, a combination of copper, carmine and salmon-yellow—most varied in its shadings and markings; flowers nearly single and produced in the most wonderful profusion during the spring months.

SEE PRICE LIST, PAGE 23
CLIMBING PAPA GONTIER. T.
Originated at Riverside, Cal., 1901
Identical with its parent (Papa Gontier), except of strong climbing habit. It is very essential that a climbing rose possesses good, clean foliage—free from mildew—and there is hardly anything in the rose family with foliage more exempt from mildew or disease than this sort. Will succeed nicely, given any exposure desired, or partial shade.

CAPTAIN CHRISTY. H. R.
(Lacharme, 1873)
A grand, hardy variety and free bloomer; flower large, very double and beautiful; color, fresh, delicate pink with deeper shading in center of flower.

CLIMBING WOOTON. H. T.
(Thos. Butler, 1889)
It is a sport from the well-known lovely rose of American origin, “Sov, de Wootton,” and the Climbing Wooton has the same large, deep crimson, beautifully shaped and exquisitely perfumed flowers, one of the healthy, vigorous and clean growers of the rose family, making shoot of from ten to fifteen feet in a season; petals of great substance; deliciously tea-scented; beautiful both in bud and bloom.

CRIMSON RAMBLER. P.
(Turner, 1883)
Flowers produced in pyramidal panicles, carrying from thirty to forty blossoms; flowers bright crimson and of small size.

CLIMBING MARIE GUILLOT. T.
(Good & Reese, 1897)
(This rose has been sold under various names, notably President Cleveland and Frances Willard.) Identical with Marie Guillot, except its strong climbing habit. Pure white; bloom very large, solid and full. Does best in the hot sections of the South.

CONRA F. MEYER. Rugosa
(Frobel, 1900)
Clear silvery rose; bloom very large, double and cup-shaped; highly fragrant; perfectly hardy and free from disease; free bloomer.

CLIMBING WHITE COCHET. T.
(From Australia, 1912)
A true sport from the bush sort of same name, and identical in every way, except of strong climbing habit.

CLIMBING KILLARNEY. H. T.
(Geo. Reinberg, 1908)
A sport from the well-known and popular bush rose Pink Killarney. Bloom identical with the parent; growth of strong climbing habit.

COUNTESS OF GOSFORD. H. T.
(McGreedy & Son, 1906)
Now, of splendid growth, free and upright, foliage pretty. One of the very high-grade roses in our nursery and pleases us immensely. Produces in profusion, perfect color, extremely pretty buds: not extra full, but delightfully graceful and always opens nicely. Color, clear salmon-pink, with base of petals saffron-yellow.

CHATEAU DE CLOS VOUGET. H. T.
(A. Pernet–Duché, 1908)
One of the very darkest: very crimson roses in existence; bloom large, finely shaped, full and prime fragrance.

COQUETTE DE LYON. T.
(Duché, 1871)
A very pretty canary yellow; a good clean grower and constant bloomer, the bloom always seeming to be produced in the most perfect condition.

CLIMBING AMERICAN BEAUTY. H. R.
(Hoopes Bros. & Thomas, 1911)
Said to be a seedling from American Beauty. A very strong grower with luxurious foliage of pretty dark green color. Good quality and seemingly free from disease. Bloom dark crimson of medium size and produced in great profusion.

CHEROKEE WHITE SINGLE.
(Native of China)
A distinct and beautiful climbing rose of merit. A most vigorous and clean grower, entirely free from disease. Flowers large, clear white and single, full of bright yellow stamens in the center; foliage distinct and one of the valuable features of the plant.

CLIMBING BELLE SIEBRECHT. H. T.
(W. Paul & Son, 1899)
A most lovely thing in a climber: color, solid cerise pink; beautiful in bud and flowers; bloom of good size and reasonably full; fragrant: strong climbing habit.

CHROMATELLA, OR CLOTH OF GOLD. N.
(Coquerreau, 1843)
A most lovely, clear bright yellow climbing rose. Very full and double, beautifully formed buds and flowers; very fragrant.

CLIMBING HELENE GAMBIER. H. T.
(Calif. Rose Co., 1911)
A true sport from the bush sort Helene Gambier and bloom identical; one of the most charming climbing roses extant.

CLIMBING CECIL BRUNNER. P.
(Originated at Riverside, Calif., 1901)
Easily the most charming and popular of the Polyanthes roses. Very robust and one of the strongest climbers in the rose family. Hardy and suitable for all sections.

CLOIS. H. R.
(Wm. Paul & Son, 1894)
Of vigorous growth and good foliage, flowers very large, of the globular form and freely produced; color, flesh, shaded in center to rosy pink.

CLIMBING MALMAISON. B.
(Bennett, 1893)
Bloom identical with Souvenir de la Malmaison; a constant and free bloomer; perfectly hardy in cold sections.

CATHERINE MERMET. T.
(Guillot, 1869)
One of the loveliest roses. Flowers very large and globular, the petals being recurved and showing to advantage the lovely bright pink of the center, shading into light, creamy pink.

CLARA WATSON. H. T.
(Prince, 1894)
A new ever-blooming rose of English origin; of good, robust growth and healthy; flowers of large size, good form and rich fragrance; the color is bluish pink with a shading of yellow at the base of petals.

WE PAY THE EXPRESS
CLIMBING METEOR. H. T.
A sport from Meteor. Of robust climbing habit, a constant and free bloomer, perfectly hardy and free from disease; as to coloring, there is no richer, velvety crimson in the rose family. Should be planted where it will get the sun all day, if possible.

CLIMBING ORIENTAL. China
(Sent to the Department of Agriculture, Washington, D.C.)
Of strong climbing habit; liberal foliage, seemingly free from all diseases; buds large, most handsomely shaped and open into a large semi-double flower of charming shell-pink color.

CLIMBING KAISERIN AUGUSTA VICTORIA.
H. T. (A. Dickson & Son, 1897)
This is easily the grandest climbing white Rose extant. Bloom is identical with the parent plant (Kaiserin): of extremely strong climbing habit; we have seen it make shoots of fifteen feet in a season; this is one of the very few roses strictly GOOD AT ALL TIMES—regardless of the season of the year.

CLIMBING GRUSS AN TEPLITZ. H. T.
(Storr & Harrison, 1911)
Identical with the bush excepting of strong climbing habit.

CLIMBING LIBERTY. H. T.
(Wm. Paul & Son, 1909)
Color, extremely rich velvety crimson; bloom large and very double and full.

CAPT. HAYWARD. H. R.
(Bennett, 1893)
Bright rose; excellent form and style; full and large.

CLIMBING PERLE DES JARDINS. T.
(Henderson, 1891)
Identical with the bush excepting climbing habit.

CLIMBING RHEA REID. H. T.
(Calif. Rose Co., 1914)
A true sport from the bush (Rhea Reid); flowers identical; one of the strongest climbers.

CLIMBING RICHMOND. H. T.
(Alex Dickson, 1912)
Identical with the parent (Richmond) excepting a robust climber.

CLIMBING RAINBOW. T.
(Calif. Rose Co., 1914)
Identical with “Rainbow” excepting of strong climbing habit and flowers rather more full. Very striking and beautiful.

CLIMBING HUGH DICKSON. H. R.
(Calif. Rose Co., 1914)
A sport from the bush of same name and identical excepting of climbing habit.

CLIMBING MME. CAROLINE TESTOUT. H. T.
(Chauvry, 1909)
A sport from the bush sort of the same name; bloom identical with its parent. One of the strongest growers in the climbing family of roses. A plant of this in full bloom is one of the most pleasing sights we know of in the way of a climbing rose; bloom is very large; color, a solid cerise pink and does not fade. Highly fragrant.

CLIMBING FRAU KARL DRUSCHKI. H. R.
(W. Lawrenson, 1906)
Bloom identical with the parent plant the bush sort of same name.

CLIMBING BRIDESMAID. T.
Identical with its parent (Bridesmaid) except the climbing habit.

CLIMBING DEVONENSIS. T. (Pavitt, 1858)
Identical with the bush sort in habit of growth. Often called the “Magnolia Rose” on account of its delicate perfume. Color, creamy white, delicately flushed with pink.

CAPT. HUDSON. Pernetiana.
(Kersbargen Bros., 1911)
A sport from Soliel d’Or. A robust grower; strong, upright canes with a flavor on each. Color, copper and orange, changing to rosycarmine and buff; bloom large and full.

CLIMBING WINNIE DAVIS. H. T.
(See illustration on cover)
(Cal. Rose Co., 1913)
A true CLIMBING sport from the bush sort, Winnie Davis; of extremely strong climbing habit and very prolific of bloom; well branched and foliaged from the ground. Bloom of fine size, with buds and half-blown flower shaped and moulded in absolute perfection; of nice substance and moderately stiff. Color, salmon-pink, shading to shell-pink and perle. This is undoubtedly one of the greatest acquisitions to the climbing rose family yet produced.

DEFIANCE. H. T.
(E. G. Hill Co., 1907)
One of the newest roses valued for bedding; growth bushy and compact and a good bloomer; rich dark red.

DOROTHEA PERKINS. Climbing P.
(Perkins, 1902)
A new rose, praised very highly in the East, where it originated. Of crimson Rambler type, but much prettier foliage; color, a pretty pink.

DUCHESS OF ALBANY. H. T.
(W. Paul & Son, 1888)
Quite commonly called “Red La France.” Color, brilliant rose-pink.

DUCHESS OF WELLINGTON. H. T.
(A. Dickson & Sons, 1909)
Intense, saffron-yellow, stained with rich crimson which develops into deep coppery-saffron-yellow; bloom fairly full, petals large and of much substance; free flowering; highly fragrant.

DOUBLE PINK KILLARNEY. H. T.
(R. Scott & Son, 1911)
A sport from Killarney; rather more full and liked by many better than the parent.

DUCHESS DE BRABANT. T.
(Bermede, 1857)
A thrifty grower and not subject to disease. Flowers cup-shaped; color, a lovely shade of soft, rosy flesh, deepening to a warm pink and bright rose; petals most delicate and wax-like, nearly transparent.

DAILY MAIL ROSE
(See Madame Edourd Herriot)

DR. VAN FLEET. Climbing Wich.
(Dr. Van Fleet, 1910)
Produced from a cross between Souv. du Pres. Carnot and Wichuriana; a hardy climber, producing great quantities of flesh-pink, sweetly scented flowers often four inches in diameter; flowers double and buds beautifully moulded.

SEE PRICE LIST, PAGE 23
DEAN HOLE. H. T.  
(A. Dickson & Son, 1904)  
Silvery carmine, shaded salmon; large, full and of fine form; one of the real grand roses.

EARL OF DUFFERIN. H. R.  
(A. Dickson & Son, 1887)  
Color, rich, brilliant, velvety crimson, shaded with dark maroon; large, full and superbly formed; the most delightful fragrance imaginable.

ELI BEAUVAILLIAN. T.  
(Beauvillian, 1887)  
One of the strong growing Climbing Teas. Color, salmon, fawn; bloom of good size; full continuous bloomer.

EUGENE BOULLET. H. T.  
(Pernet-Ducher 1910)  
The parentage (Etoile de France and Laurent Carle) bespeaks quality. A good grower and branching freely; foliage a pretty bronze green; liberal. Heavy bloomer; bloom full and globular; color, deep crimson-red.

ERNA TESCHENDORFF. Polyanthea  
(Teschendorff, 1911)  
Brilliant rosy-crimson; flowers produced in clusters; one of the most showy Polyanthea.

ETOILE DE FRANCE, JR. H. T.  
(Calif. Rose Co., 1911)  
A sport from Etoile de France, originating on our grounds. Of stronger growth than the parent and more upright; foliage heavy and liberal and handsome in color and appearance. Bloom, very large, deep and full and we have not as yet heard of a section where it did not open up well and prove highly successful. Color, very deep crimson, more velvety and lustrous than the parent. Unusually fragrant.

ETOILE DE FRANCE. H. T.  
(Pernet-Ducher, 1895)  
A good and clean grower; upright in habit; foliage good and nice dark green in color; the bloom is produced continually; is of large size, full and borne on good long stiff stems; the color is a most charming shade of rich velvety crimson and does not fade; is highly fragrant.

ETOILE DE LYON. T.  
(Guiliot, 1881)  
Flowers nearly as large as Marechal Niel, full and beautiful yellow.

F. R. PATZER. H. T.  
(A. Dickson & Son, 1909)  
Creamy-buff; back of petals delicate warm pink; as petals reflex the color becomes light orange pink; flowers large and of prime substance and perfect formation.

FRANCISCA KRUGER. T.  
(Nabonnand, 1879)  
A good grower and still quite popular style of flower very similar to Catherine Mermet; color, coppery pink, varied with lighter tints.

FLORENCE PEMBERTON. H. T.  
(Alex Dickson & Sons, 1903)  
Creamy-white, suffused with pink; beautifully marked and delicate; flowers perfectly formed both in bud and full bloom; high pointed center; robust of growth.

FRAU KARL DRUSCHKI. H. R.  
(Lambert, 1900)  
A strong grower with clean, light-green, very pretty foliage. Flowers are very large, deep, full of exquisite substance and texture and very fragrant. Color, pure waxy white.

WE PAY THE EXPRESS
EDWARD MAWLEY

EDWARD MAWLEY. H. T.  
(S. McGreedy, 1911)
Introduced by this firm of Irish Rosarians as the very best "Velvety Crimson Rose" in the Hybrid Tea family. A very thrifty grower and of good foliage; bloom is large, full, petals of great substance; color marvelous in richness.

FERNIEHURST. H. T.  
(A. Dickson & Son, 1911)
Suffused pure rosy coppery-pink on fawn,—a delicate sunset shade; blooms large, full and invariably produced with perfect finish and smoothness. Upright in growth with absolute and distinct foliage which is deep green, with lemon mid-ribs, deeply serrated and leathery.

GEORGE ARENDS
Apparently the same as Pink Frau Karl Druschki, by California Rose Co.

GLORIE DE DIJON. T.  
(Jacotot, 1855)
A well-known climber of much merit, a strong grower and constant bloomer. Flowers, buff color, shading to yellow. Full and fragrant.

GAINSBOROUGH. H. T.  
(Climbing Vis Folkstone)  
(Good & Reese, 1903)
Here is a good new rose and a valuable acquisition to our climbing roses—color being flesh pink. It is a sport from Vis Folkstone and the bloom identical; flower large, very full, rich fragrance and prime substance. One of the strongest climbers.

GLORIE DE MARGOTTIN. H. R.  
(Margottin, 1887)
Of splendid growth, liberal dark green foliage; color, extremely brilliant scarlet—live and lasting; flowers large, reasonably full, globular, of good shape, pretty in bud, extremely beautiful, distinct and attractive when open.

GRUSS AN TEPLITZ. H. T.  
(Geschwintd, 1897)
One of the brightest colored roses extant, of peculiar lasting qualities, retaining its magnificent, vivid, rich, fiery red coloring even during the hottest summer weather. A handsome, clean grower; pretty foliage. Flowers of good size and continuous bloomers.

GRACE MOLYNEAUX. H. T.  
(A. Dickson & Son, 1908)
A splendid new rose of real merit. Creamy-apricot; bloom of nice size, of superb texture and substance.

GOLDEN GATE. T.  
(Dingee, 1892)
Rich creamy-white with base of petals pale yellow.

GE. C. WAUD. H. T.  
(A. Dickson & Son, 1908)
One of the new Gold Medal Roses. Orange-vermilion; bloom large, full and nicely formed; fragrant.

GLORIE DES ROSAMONES. B.  
(Ragged Robin, Vibert, 1825)
A wild rose well known in this vicinity; and planted considerably on account of its brilliant colored bloom and strong growing qualities; flowers single.

GE. DICKSON. H. T.  
(A. Dickson & Son, 1912)
The originators say: "We with no little pride issue it as the best exhibition rose ever raised by us, and without a compeer." Of vigorous growth, thick leathery beech-green cordate foliage. Blooms very large and full, of velvety black-scarlet-crimson color with brilliant scarlet reflexed tips; bloom opens naturally and in the most perfect form.

Express Order $............

PRICES QUOTED are TRANSPORTATION PREPAID BY OURSELVES ON ORDERS FOR ONE DOZEN OR MORE ROSES. If less than one dozen ordered, buyer pays the transportation at destination—in which case they must in every case be forwarded by express. We will prepay transportation if buyer adds to his cost of roses and includes with remittance as follows: One rose, 10 cts.; two roses, 16 cts.; three roses, 22 cts.; six roses, 35 cts.; above this number, but less than one dozen, 8 cts. each. Dozen rates do not apply on mixed varieties in any case.

DOZEN AND HUNDRED RATES—All 25 cent roses are $2.75 per dozen, or two dozen for $5.00. 100 for $20.00. All 35 cent roses are $3.50 per dozen, two dozen for $6.00, $25.00 per 100. All 50 cent roses are $5.00 per dozen; two dozen for $9.00; $32.00 per 100;—unless otherwise specified. Please take note that to be entitled to dozen rates, order must be for not less than six of a variety; 50 at 100 rates.

GOLDEN TROPHY

**GOLDEN TROPHY.** Climbing, T.
(Cond. Rose Co., 1914)
A sport from Duchess de Auerstadt (Bernaix, 1888). A 100 point rose and a hundred dollar rose—(A Texas lady secured $100.00 in gold for naming this rose.) Habit, strong and vigorous; foliage liberal and very large; bloom better formed than the parent, both in bud and open flower; color, deep golden yellow; waxy and steadfast; undoubtedly the richest climbing yellow and retains its color the best under the penetrating light of the Pacific Coast and southwest. Bloom extra large, beautifully formed and of unusual substance; flowers borne on long, strong stems; extremely valuable for cutting; continuous bloomer.

**GLADYS HARKNESS.** H. T.
(A. Dickson & Son, 1900)
One of the prettiest roses in our fields. Of very upright growth, much like the Hybrids. Bloom large and full, pretty, in bud and flower; color, rich cerise pink, which does not fade.

**GENERAL McARTHUR.** H. T.
(Hill, 1905)
A meritorious rose in every way. We have tried this rose out thoroughly on our grounds and without hesitation pronounce it one of the GRAND roses. "A rose for the millions." Growth upright and symmetrical; foliage clean and pretty; bloom borne on long and substantial stems. Persists in blooming at all times and flowers good at all seasons. The color is a bright, crimson scarlet which does not fade; one of the very richest shades of red; bloom of good size; moulded and shaped right and no fault can be found with either the bud or open flower. (See illustration on page 22.)

**GIANT OF BATTLES.** H. R.
One of the roses of the long ago, but of much merit. Strong, upright growth, producing very large, full, exquisitely fragrant dark crimson blooms on long stems.

**GENERAL JACQUEMINOT.** H. R.
(Roussel, 1883)
One of the very best growers and easiest of cultivation; never failing to produce a fine crop of rich, dark red flowers. Its fragrance is lasting and delightful.

**HELENE GAMBIER.** H. T.
(Pernet, 1896)
Flowers of good size, of splendid substance and lasting; color, copper-yellow to deep amber-yellow, changing to lemon-yellow in outer petals, making a pretty and striking combination. A splendid garden sort.

**HARRY KIRK.** T.
(A. Dickson & Son, 1907)
Deepest yellow, passing to lighter shades at edge of petals; large, full and beautiful form; buds long and elegant; free bloomer.

**HELEN GOULD.** (Balduin) H.T.
(Lambert, 1898)
In color it resembles Mme. Caroline Testout closely—a rich, solid, bright pink; shape of buds are the ideal, and when full blown the petals reflex similar to Kaiserin. Bloom not quite so large as Kaiserin, nor have the petals so much substance, but nevertheless a most sweet and charming thing, and possessing a color rare in roses.
HERMOSA. Bourbon
(Mancheson, 1840)
One of the oldest roses; hardy and well known. Of bushy, compact growth; clean foliage; flowers medium sized, full and fragrant. Color pink.

HIAWATHA. Climbing Hybrid Wich.
(Walsh, 1904)
One of the grandest of its class; extremely valuable either as a climber or to grow prostrate on the ground or over embankments; bright green, handsome foliage; both growth and foliage produced in immense quantities. Flowers about one and one-half inches across and produced in long pendulous sprays with frequently forty to fifty flowers on a spray; color, extremely brilliant ruby-carmine, with a clear white eye and a mass of golden stamens. One of the grandest things for cutting for decorations.

HADLEY. H. T.
(Montgomery Co., 1914)
Developed from a seedling fertilized by Liberty, General McArthur and Richmond. Color, velvety-crimson of permanence; a strong, rapid grower, delivering bloom on long, stiff stems; flowers large, double and beautifully formed; a profuse bloomer; one of the most fragrant roses.

HUGH DICKSON. H. R.
(Hugh Dickson, 1904)
A prime acquisition to the family of Hybrid Perpetual roses. One of the most robust growers—both as to wood and foliage and unlike many of our good Hybrids. Bloom of extra good substance, rich in fragrance, large and very full and of a most pleasing bright and clear red.

HERZOGIN MARIA ANTOINETTE. H. T.
(Jacobs, 1911)
Deep orange passing to old gold; bloom large and most beautifully formed,—produced on good stems; very free bloomer; highly fragrant.

IVORY T.
(White Golden Gate, American Rose Co., 1903)
A sport from the well-known rose "Golden Gate." Color, ivory white; seems to be identical with its parent, except in color.

IRISH ELEGANCE. H. T.
(Alex Dickson & Sons, 1905)
One of the most beautiful of Irish single roses; superb in bud; exquisitely formed—long and pointed; color, brony-orange and scarlet, shading to apricot.

IDEAL. H. T.
(Jacob Becker, 1900)
Another new variety which will appeal to the lover of good roses. Color, a beautiful shade of pink, of the La France type.

IRISH FIREFLAME. H. T.
(A. Dickson & Sons, 1912)
The name partially describes this rose; unique and absolutely distinctive petaled and single; perfect buds; color in close bud, fiery-orange red.

J. B. CLARK. H. R.
(Hugh Dickson, 1905)
Wherever it has been seen in bloom has created the strongest kind of enthusiasm. A very strong grower of almost semi-climbing habit; color, extremely rich crimson, bright and dazzling and steadfast; bloom large, very full and fragrant.

SEE PRICE LIST, PAGE 23
JONKHEER J. L. MOCK. H. T.  
(Leenders, 1901)  
Splendid, upright, strong grower, producing its flowers on long stiff stems and in abundance; beautifully formed; fragrant; color, imperial pink.

JUBILEE. H. R.  
(Henderson, 1897)  
One of the very richest velvety dark red sorts in the Hybrid family; luxurious in growth and clean; one of the best bloomers of its class.

JULIET. Hybrid Austrian Briar.  
(Wm. Paul & Son, 1910)  
Outside of petals old gold; interior rich rose-red, changing to deep rose as flowers expand; bloom large and beautifully formed.

KILLARNEY. H. T.  
(A. Dickson & Son, 1898)  
Distinct, of English origin; growth upright and strong; bloom of good size; not very full; very handsome in bud; graceful and unique when full bloom. Color solid pink.

KING DAVID. H. T.  
(Calif. Rose Co., 1910)  
This is a sport produced on our own grounds from Vick's Caprice. Style of growth and foliage identical with its parent, while the bloom is a distinct and pretty shade of delicate pink; flowers are of good size, extremely full; highly fragrant.

KAISERIN AUGUSTA VICTORIA. H. T.  
(Lambert & Reiter, 1891)  
This is easily the grandest and most beautiful white ever-blooming rose extant; shining, lustrous white, with just enough of the lemon cast in the center to make it perfect. It is equally handsome in bud or open flower; the flowers are very large, and although it opens wide and full, petals reflexing and rolling back to the stem, the center is not shown; the petals reflex, curve and roll back as it opens until the appearance is strikingly like a perfect bloom of the Camelia.

KEYSTONE. Climbing Polyantha  
(Dingee, 1904)  
Deep lemon-yellow: full and double; magnolia fragrance; free bloomer; vigorous.

KILLARNEY QUEEN. H. T.  
(Budlong, 1892)  
A sport from Killarney; rather more full and of better color.

LA FRANCE. H. T.  
(Guillot, 1867)  
Delicate silvery rose, changing to silvery pink; very large; full of fine globular form.

LADY MARS. T. Climber  
(Calif. Rose Co., 1909)  
A new climber of real merit; clean foliage, of strong climbing habit and a constant producer of handsome, well formed, very full flowers; color, buff-yellow, suffused with apricot and fawn.

LYON ROSE. Pernetiana  
(Pernet-Ducher, 1907)  
Shrimp pink at edge of petals; center coral red shaded with chrome-yellow; a most distinct and charming combination. One of the most magnificently formed roses we grow, which together with its superb coloring, grand substance and sturdy growth gives us a rose belonging up near the head of the list.
LA DETROIT. H. T.  
(Hopp, 1905)  
Of recent introduction; one of the grandest all round roses we grow—truly a "rose for the millions." A very strong, upright grower and always in bloom; foliage clean, light green in color and pretty; color of bloom, shell pink shading to soft rose; flowers large, beautifully formed and moulded and delightfully handsome both in bud and open flower.

LAMARQUE. N.  
(Marchal, 1830)  
Climbing white, continuous blooming rose. In nearly all sections where the winter temperature will admit, Lamarque has been grown and is well known.

LOUISE CATHERINE BRESLAU. H. T.  
(Pernet-Ducher, 1912)  
Coral-red, shaded with chrome-yellow; flower very large, full and globular.

LESLIE HOLLAND. H. T.  
(Hugh Dickson, 1911)  
(Awarded a GOLD MEDAL by the National Rose Society)  
Very deep scarlet-crimson, shaded and flamed deep velvety-crimson extremely brilliant and dazzling; one of the richest colorings in roses; flowers large, deep and of great substance.

LADY GAY. Climbing Wich.  
(Walsh, 1903)  
A hardy climber, producing rich rose colored flowers of medium size in great profusion; foliage prime; valuable as a climber or for embankments.

SEE PRICE LIST, PAGE 23
LADY HILLINGDON

LADY HILLINGDON. T.
(Lowe & Shawyer, 1910)
A very striking and lovely rose. Long, slender pointed buds of beautiful deep apricot and chrome yellow; free flowering; very decorative.

MY MARYLAND. H. T.
(Cook, 1909)
One of the new, American roses which is proving highly popular on this coast and in the southwest. Robust and clean in growth and a prolific bloomer at all times: color, intensely glowing pink; bloom large and full and produced on good stems.

MISS KATE MOULTON. H. T.
(J. Monson, 1906)
One of the finest garden roses; color soft shell-pink with the reverse of petals deeper tones; very pretty and liberal foliage.

MARCH. OF LORNE. H. R.
(W. Paul, 1889)
One of the very fine garden roses of recent introduction. Strong and graceful in growth; liberal foliage of rich dark color and free from disease; color, a very handsome cerise pink.

MADAME LAMBARD. T.
(Lacharme, 1877)
A free grower and incessant bloomer; flowers of good size and heavy substance; color, rosy bronze, shaded with carmine, changing to salmon and fawn.

MRS. J. W. BUDDE. H. T.
One of the good dark red roses; bloom large, full and of first rate substance; fragrant; growth erect and clean.

MADAME CAROLINE TESTOUT. H. T.
(Pernet-Ducher, 1890; Madam Tartas and Mary Fitzwilliam)
Known in Oregon as the "Portland Rose" A most grand and distinct variety; hardy and a continuous bloomer; flowers produced on straight and stiff stems; buds and blooms large to very large, distinct and pretty in formation, with that brilliant satiny-pink coloring so pleasing to the eye, while its fragrance is delicious.

MADAME JULES GROLEZ. H. T.
(Guillot, 1897)
Similar in style of growth and foliage to Kaiserin; color cherry-red; valuable.

MILDRED GRANT. H. T.
(A. Dickson & Son, 1901)
Silvery white; edge of petals sometimes shaded pink; large size, very full, high pointed center; produced on strong stems; of much substance; fragrant and grand.

MADAME LEON PAIN. H. T.
(Guillot, 1904)
Of good robust growth, pretty dark colored foliage; bloom large, full and free in opening; very handsome bud; color, silvery salmon, with center orange yellow; reverse tinged with red and yellow.

MADAME JENNY GILLEMOT. H. T.
(Pernet-Ducher, 1906)
Upright in habit; foliage distinct, bright and clean; a prolific bloomer; color, deep saffron-yellow with golden shadings; buds most beautifully formed and moulded and petals of the most exquisite texture; moderately full and superb both in bud or open flower.

MRS. JOHN LAING. H. R.
(Bennet, 1887)
A most beautiful rose of long standing popularity, and finds a place in nearly all choice collections. A seedling from "Francois Michelson;" soft pink, large and of fine form, produced on long, strong stems; exceedingly fragrant and flowers continually when grown as a garden rose.

MRS. BENJ. R. CANT. R.
(B. R. Cant & Sons, 1901)
Deep rose on outer petals; inner petals soft silvery-rose, suffused with buff at the base.

MARY, COUNTESS OF ILLCHESTER. H. T.
(A. Dickson, 1909)
Warm crimson-carmine; bloom very large; massive petals of superb substance; free flowering; delicately tea scented; a rose of much merit.

WE PAY THE EXPRESS
MADAME ALFRED CARRERE
Hybrid Noisette
(Schwartz, 1879)
One of the fine, light-colored climbing roses. A strong grower, good foliage and good bloomer. Flowers: of good size; with double and deep, highly fragrant; color a rich creamy white, tinged with blush and pale yellow.

MRS. G. W. KERSHAW. H. T.  
(A. Dickson, 1906)
Very long pointed buds produced on fine stems; color, brilliant and intense pink.

METEOR. H. T. 
(Geschwindt, 1887)
It is a rich dark velvety crimson color; a constant bloomer, generally in full flower when many of the highly prized sort are doing little; flowers very double and compact and borne on good stems, especially adapted for cutting.

MRS. ROBERT CARRET. H. T.  
(Cook, 1889)
A cross between Sombreuil and Madame Caroline Testout; in growth it is quite similar to the latter sort. The coloring is a rich deep, yet soft, shell-pink, a color hard to correctly describe and one which comes only from petals of great substance: its fragrance is very sweet.

MADAME RAVARY. H. T.  
(Pernet-Ducher, 1900)
A good yellow bedder: long slender buds opening to large double flowers with orange yellow centers; very decorative.

MARECHAL NIEL. N.  
Said to be a seedling of "Isabella Gray." Globular and of the most delightful and lasting fragrance: color, deep rich yellow. It should not be pruned.

MADAME LOUIS POIRET. H. T.  
(Seeding from Testout X. Marq Litta) Very distinct; of very upright habit, similar to the Perpetuals, but more slender of growth; flowers of good size, full, somewhat globular, very fragrant; color, solid dark pink.

MAMAN COCHET. T.  
(Cochet, 1889)
The general style of growth and bloom of Maman Cochett and White Cochett are entirely identical—rather spreading. The foliage, tough and leathery, and no rose grown, we might say, is more free from mildew and disease than the Cochets; color, clear pink.

MAY MILLER. H. T.  
(E. G. Hill, 1910)
Vigorous in growth; abundant bloomer; prime foliage; dark and handsome; buds long and pointed; flowers large and full; color, back of petals copper and bright pink; upper surface peach and apricot changing to coral red.

MADAME SECONDE WEBER. H. T.  
(Soupert & Notting, 1908)
Glowing pink; beautiful formed buds, opening to a large, full magnificently shaped flower which tone to deep shades of pink as flower expands.

MADAME ABEL CHATENAY. H. T.  
(Dickson & Son, 1889)
A valuable garden sort. Flowers of good size and beautifully shaped and moulded: the buds are exquisite; the color is a beautiful creamy rose, shaded with vermilion and tinged with salmon; the base of petals being highly colored.

MRS. CHARLES CURTIS HARRISON. H. T.  
(A. Dickson & Son, 1910)
Unique and entirely distinct; color, deep crimson-pink, crayoned crimson-carmine on reverse of petals; flowers large, full; somewhat globular; petals of substance: free and constant bloomer: very fragrant.

MADAME MASSON. H. R.  
(Masson, 1856)
One of the old and valuable roses. Extremely large, full and unusually fragrant. Color, intense red. An unusually good bloomer of its class.

MADAME P. EULER. H. T.  
(Guillot, 1908)
Has been sold by some under the name of "Prima Donna." Bloom of medium size, reasonably full, handsome buds; of good substance and fragrance. Color, vermilion-pink.

MRS. CHARLES RUSSEL. H. T.  
(Montgomery, 1912)
Of American Beauty size and fragrance; buds, long and pointed; color, bright rose; produced on extra prime stems.

MADAME GAMON. T.  
(Gamon, 1906)
Apricot-yellow, shaded with gold; beautiful buds and full blown flower; a good clean grower.

MADAME MELAINE SOUPERT. H. T.  
(Soupert & Notting, 1906)
Salmon yellow, suffused carmine: large, full and grand.

MADAME PHILIP ROIRE. H. T.  
(Soupert–Ducher, 1905)
Apricot and fawn: flower full and fine.

MADAME CONSTANCE SOUPERT. T.  
(Soupert & Notting, 1906)
Golden yellow, tinted peach: flowers large, full and exquisitely formed; one of the most satisfactory growers of the family.

MRS. DAVID JARDINE. H. T.  
(A. Dickson & Son, 1908)
Rosy-pink, shaded salmon. Bloom of good size and approved form. Excellent bloomer and highly perfumed.

MRS. SAM ROSS. H. T.  
(Hugh Dickson, 1912)
Habit of plant, stout, uniform and free flowering; bloom large, full and well formed; color, straw to light yellow: reverse of petals buff.

MADAMEmina BRABANSON. H. T.  
(Soupert & Notting, 1901)
A seedling from Madame Caroline Testout and Madame Chatenay. One of the newer Hybrid Teas of merit. Of good, sturdy growth, upright, clean; bloom large, very full, of much substance, of good style and borne on unusually good strong stems; color, soft shell-pink.

MRS. GEO. SHAWYER. H. T.  
(Lowe & Shawyer, 1911)
Brilliant clear rose; bloom large, well formed and reasonably full and carried on splendid stems; foliage robust and good.

MRS. R. G. SHARMAN CRAWFORD. H. R.  
(A. Dickson & Son, 1894)
Upright of growth, pretty, light green foliage and blooms more than most of the roses of this class: flowers large, full and highly fragrant: color, a delicate shade of pink.

SEE PRICE LIST, PAGE 23
MRS. AARON WARD. H. T.
(Pernet-Ducher, 1907)
The coloring is a story which cannot satisfactorily be told in words: Indian yellow, copper and gold; at times washed with salmon-rose; flowers full and of nice substance; lovely buds for cutting.

MRS. WAKEFIELD CHRISTIE MILLER. H. T.
(McGreedy, 1914)
Award of Merit, Royal Horticultural Society, London. Bloom enormous size, quite full, petals of unusual substance: growth, uniform and stout; every bloom produced on upright stems; foliage claimed to be mildew proof; color, inside of petals soft pearly-blush, shaded salmon; outside of petals clear vermilion rose—entirely unique and distinct.

MRS. TAFT.
(See Antoine Revoire)

MRS. THEO. ROOSEVELT. H. T.
(E. G. Hill, 1908)
Creamy white with rose colored center; buds long and pointed; bloom large and full; of splendid form and substance; heavy bloomer.

MADAME DE VATRY. T.
(Guerin, 1855)
One of the older good all-round roses: upright and symmetrical; bloom large and full; color, dark red, changing to silvery pink.

MARQUISE DE QUERHOENT. T.
(Goard, 1901)
Of good strong growth, making splendid bush for the garden; clean, healthy wood and persistent bloomer. Bloom of good size, prime substance, full and sweet. Color, beautiful china rose, salmon, copper and golden yellow—a combination rarely seen.

MONSIEUR DE SIR. T.
(Climbing)
A very rich dark red, rapid growing climber of merit. Not a new rose but our experience with it is very favorable.

MADAME CECIL BRUNNER. P.
(Ducher, 1881)
Plant of dwarf growth, excellent for bordering. Color, salmon-rose. We think the most beautiful and lovely of the miniature roses. Very fragrant.

MRS. HUBERT TAYLOR. T.
(A. Dickson & Son, 1909)
One of the really good Tea roses. Symmetrical, upright growth; flowers of nice size, beautifully formed and finished; color, shell-pink, edges of petals ivory-white; very productive.

MELODY. H. T.
(A. Dickson & Son, 1911)
Deep saffron-yellow; at times primrose at edge of petals. Bloom of splendid form and substance.

MRS. AMY HAMMOND. H. T.
(McGreedy & Son, 1911)
A blend of ivory, amber and apricot; flowers of perfect shape; petals long and pointed.

MADAME WAGRAM.
Climing Paul Neyron. H. T.
(Bermaix, 1895)
In this sort we have the very best all-round distinctly pink, constant-blooming, climbing rose grown, a rose for the people everywhere; a heavy and constant bloomer and at the same time hardy. An enormous grower, good foliage and free from disease. Color, a most charming semi-transparent, clean solid pink, which does not fade out to a dirty cream pink. Flowers large, full and double; buds of charming form, fragrant.

MILADY. H. T.
(Towill & Plierson, 1913)
Produced from a cross between Richmond and J. B. Clark; color, similar to Richmond; especially adapted to garden culture.

MRS. CHARLES E. ALLEN, H. T.
(Hugh Dickson, 1911)
Pale neutral orange, gradually changing as the flowers expand to clear ochre and yellowish-buff; blooms are perfect and freely produced.

WE PAY THE EXPRESS
MADAME EDOURD HERRIOT

MADAME EDOURD HERRIOT. Pernetiana. (Pernet-Ducher, 1913) (Gold Medal National Rose Society, London, 1912)

Color, coral red, shaded with yellow and bright rose-scarlet; flowers of good size; most beautiful buds produced on splendid stems.

MARIE VAN HOUTTE. T. (Duch. 1871)

Of a beautiful straw color, with outer petals edged with bright rose; occasionally the entire flower is suffused with light pink. Flowers large, very full and fragrant.

MAGNIFICA. H. R. (W. Paul & Son, 1879)

Old and very well known. Pink suffused with carminor, full and globular. Foliage and wood light green, and highly ornamental when planted with other varieties; fragrant.

MRS. EDWARD WADDLE. H. T. (See illustration on over) (Pernet-Ducher, 1908)

One of the truly grand roses. Of good clean, upright growth; foliage good. Color, reddish-salmon, at times shaded orange; buds and petals long; bloom produced on long, strong stems; exquisite both in bud and matured flower. Attracts marked attention when exhibited among a large collection of the choicest varieties.

NEERVELT. Climbing, H. T. (H. Verschuren & Son, Holland, 1910)

Originated from a cross between Glorie de Dijon and Princesse de Bearn. Strong growing climber; color, brilliant red.

OPHELIA. H. T. (Wm. Paul, 1912)

Salmon-flesh, shaded with rose; large and perfect shape; flowers delivered on long stiff stems and produced in great abundance; fragrant. Foliage recommended as free from mildew and black spot.

ORIOLE. H. T. (California Rose Co., 1910)

Foliage and wood light green in color; wood fairly smooth; charming buds and retains its shape unusually well, but when well matured, opening freely; reasonably full, petals broad; texture very satiny and delicate; color, lemon yellow.

OLIVIA. H. T. (Hill, 1907)

This rose has values and characteristics attained by few of its class and color: of good clean, symmetrical growth, and handsome; clean foliage. Bloom of good size, shape, texture and fast color; flowers carried upright; color, deep rosy-red; prolific bloomer; fragrant.

ORLEANS. Dwarf Poly. (Levavasseur, 1910)

Geranium-red, suffused rose and white center; a charming combination. The plant is hardy and a very strong grower; the flowers are very lasting and keep in fine condition on the plants for an unreasonable length of time. The superb colorings, together with its tremendous blooming qualities make it very popular.

PINK FRAU KARL DRUSCHKE. H. R. (California Rose Co., 1887)

A true sport from Frau Karl Druschke (white). Style of growth and wood nearly identical with the parent; color, a very pleasing shade of deep pink similar to Mrs. Laing and extremely fragrant; flowers borne on very long upright stems of grand substance and lasting; flowers full but always open perfectly.

PERLE DES JARDINS. T. (Levet, 1874)

Rich yellow, fading to straw color.

PERLE VON GODESBURG. G. T. (Schneider, 1902)

This new rose is identical in growth, style and make-up with Kaiserin and produces the same magnificent, large exquisitely shaped bloom; the color however is lemon yellow.
PERLE D'OR. Pol. (Rambeaux, 1884)
The Yellow Baby Rose. Nankeen-yellow with orange center; buds very full and beautiful.

PINK CHEROKEE SINGLE
A Hybrid between Rosa Lewigiana (Cherokee) and Rosa Indica; introduced into Europe from Formosa 1887. Growth, foliage, etc., as well as general style of bloom similar to the White Cherokee; bloom, however, beautiful, dark pink, gradually toning to lighter shades as flowers age.

PAUL NEYRON. H. R. (Levet, 1869)
Very well known and popular; said to produce the largest flowers of any rose in existence. A handsome, upright grower, producing a flower at the end of every long, stiff stem, similar to American Beauty; color, deep rose; a free bloomer.

PRINCE ENGLEBERT CHARLES d'ARENBERG. H. T. (Soupert & Notting, 1910)
Parentage: Étoile de France and Richmond. A good grower and producer of an abundance of gummed flowers, both in bud and full blown; color, brilliant firey-scarlet.

PILLAR OF GOLD or E. VEYRAT HERMANOS Climbing. T. (Bernaix, 1895)
A very attractive combination of coloring; apricot-yellow with reflex petals flushed with coppery-pink and old gold; flower large and double and often produced in bouquets of from five to ten flowers to the branch.

PRESIDENT TAFT (See Antoine Revoire)

PAPA GONZIER. T. (Nabonnand, 1883)
A splendid grower and makes a shapely and handsome bush. It produces the most perfect shaped, lovely buds imaginable and of the deepest glowing crimson color.

PRINCE DE BULGARIE. H. T. (Pernet-Ducher, 1902)
Style of growth somewhat bushy; foliage of medium size and bright green in color. A persistent and constant bloomer; flowers large and full, bearing in a most charming manner at all times and in all stages of development — and is a perfect bloom to the last. Color of delicate pink, shading to salmon and tones of yellow.

PRINCE CAMILLE DE ROHAN. H. R. (E. Verdier, 1861)
One of the very darkest, rich, velvety red roses in existence; has been sold quite extensively under the name of “Black Prince.”

QUEEN. T.
Pure white; flowers cup-shaped; free bloomer and nice bedder.

QUEEN OF EDGLEY. H. R. (Floral Exchange, 1897)
A sport from the famous American Beauty and very similar in style to the parent variety.

QUEEN SCARLET B. (Hallock, 1880)
A strong and thrifty grower and a most profuse bloomer from early in the season to the later months; flowers of medium size, full and fragrant; color, a bright scarlet which remains constant.

ROSAINE GEREVAUX. H. T.
Another Hybrid Tea of English origin and proving itself a good garden rose. A prime grower; flowers are borne on long, strong, stiff stems; very large, full and fragrant; very pretty in bud; color, rosy flesh.

REINE MARIE HENRIETTE. T. (Levet, 1873)
A strong grower, constantly in bloom and very free. The flowers are of enormous size, exquisitely shaped, both as to bud and flower, and richly tea-scented. Color, rich crimson, Not free from mildew.

RAYON D'OR. Hyb. Austrian Brier (Pernet-Ducher, 1910)
Deep-yellow and copper; changing to sunflower yellow when flowers fully expanded; buds often streaked with orange and scarlet bars.

RICHMOND. H. T. (E. G. Hill, 1905)
Originated at Richmond, Ind. One of the extremely fine, free flowering, large, crimson-scarlet roses. Bloom of good size, deep, not very full; beautiful shaped buds.

RADIANCE. H. T. (Cook, 1909)
Brilliant rosy-carmine; flowers of beautiful form, large and full; very prolific; of good growth and satisfactory foliage.

RAMONA RED CHEROKEE (Cherokee) (Dieterich & Turner, 1913)
Habit identical with Pink Cherokee; color bright red, often fading to pink.

RAMONA. Climbing (Red Cherokee) (Dieterich & Turner, 1913)
A sport from Pink Cherokee; bloom often larger than the parent; color, red — often changing to light pink.

RUTH VESTAL. T. (Vestal & Son, 1906) (Climbing Bride)
A bud variation from Bride and identical with this sport in all ways excepting its vigorous climbing habit.

RAINBOW. T. (John Sievers, 1891)
A very useful and pretty striped variety, strong and vigorous in habit. It makes fine buds and flowers of a beautiful shade of pink distinctly striped and mottled with bright crimson shaded and toned rich amber-yellow.

REINE OLGA WURTEMBURG Climbing, H. T. (Nabonnand, 1881)
A climbing rose of much merit; if you have visited the south of France, you have seen them in their “glory,” making beautiful thousands of homes. Flowers large, very double and full, splendidly formed and of very rich deep red color.

REVE D'OR. Noi. (Ducher, 1869)
A splendid robust climber with the very best of foliage. Color, apricot-yellow with orange and fawn tints; petals of superb and delicate texture; flowers moderately full; always pretty and graceful whether in bud or full open; a very profuse bloomer.

WE PAY THE EXPRESS
RHEA REID, H. T.  
(E. G. Hill, 1909)  
Parentage, American Beauty crossed with a Red Seedling. In the municipal gardens, Bagatelle, at Paris, France, this rose was awarded the Gold Medal as the finest rose among eighty-four sorts tested. Flowers of good size, full, deep; buds exquisitely moulded, extremely beautiful both in bud and open flower; color, extremely rich crimson which remains fast.

SENATOR MASCOURAND, H. T.  
(Pernet-Ducher, 1909)  
Vigorous and erect grower; flowers full, large and globular; color, deep orange, center toning to lighter shades at edge of petals.

SOLIEL D'OR. Austrian Briar  
(Pernet-Ducher, 1909)  
Orange-yellow and nasturtium red.

SOU DE LA MALMAISON. Bourbon  
(Beluze, 1843)  
Flesh color; very large and full.

SOUVENIR DU PRESIDENT CARNOT, H. T.  
(Pernet-Ducher, 1895)  
Succeeds admirably as a garden rose, is hardy and does well at all seasons of the year; a continuous and free bloomer; thrifty, upright, and symmetrical in growth. Flowers of good size; buds most exquisitely formed and moulded; full and compact, opening into a most beautiful rose; in color it can be termed a most delicate rosy flesh.

SOUVENIR DE WOOTON, H. T.  
(Cook, 1890)  
Flowers large and full; petals heavy and of great substance. Color, a beautiful shade of carmine crimson, oftentimes as dark as the well-known "Jack" rose.

SAUCY ANN, H. T.  
Brilliant-scarlet; flowers of good size, handsomely shaped and moulded and of excellent substance, seemingly perfect at all times; insists upon blooming from every shoot and at all times. Growth, free and bushy; foliage clean and attractive.

SEE PRICE LIST, PAGE 23
ROSES FOR THE PEOPLE

SUNBURST. H. T.
(Pernet-Ducher, 1912)
The most widely advertised rose of recent years. Awarded the highest merits in every exhibition abroad. Awarded silver cup at Chicago and Cincinnati; bloom scored 90 points at N. Y. Florist Club as well as at Madison, N. Y. No concern east or west has thus far been able to fill but a small portion of orders received for this grand rose. Does splendidly either out-of-doors or under glass; a symmetrical and clean grower; foliage good; color, orange-copper or golden orange yellow; intense shades and brilliant in effect; long pointed buds—perfect for cutting; opens to a perfectly formed full bloom; very deep; of great substance and lasting; flowers borne on long straight stems.

SOUTH ORANGE PERFECTION
Climbing Hybrid Wichuriana
(Manda, 1897)
A good climber or to grow prostrate on the ground or over embankments; liberal grower; foliage prime, dark green and handsome; flowers of medium size, full and double, delicate; color blush-pink of the most exquisite shadings; profuse bloomer.

SHOWER OF GOLD.
Climbing. Wich.
(Wm. Paul & Son, 1910)
A hardy climber producing immense quantities of rich, yellow flowers in clusters; a vigorous climber; foliage handsome of color and glossy.

SILVER MOON.
Climbing. Wich.
(Dr. Van Fleet, 1910)
Produced from a cross between Wichuriana and Cherokee; color, silver-white; center filled with bright yellow stamens; flowers often four inches in diameter; foliage grand. Very valuable for embankments as well as to grow upright as a climber; hardy.

WE PAY THE EXPRESS
SWEET MARIE. H. T. (Cal. Rose Co., 1915)
A true sport from Mrs. G. W. Kershaw. Habit much more robust than the parent and of better foliage; color, a most beautiful soft shade of pink—not unlike the best tones of a Mrs. John Laine: bloom, of nice size, full and lasting, and perfect both in bud and open flower.

SOLFA TERE. Climbing Noisette. (Boyau, 1893)
 Sulphur-yellow; light green foliage; bloom of fair size and produced in profusion; very pretty in bud.

SATISFACTION. Climbing Noisette (Calif. Rose Co., 1915)
A bud variation from the well-known Reve d'Or. Of strong climbing habit, bushy and branching from the ground up; making a dense climber; foliage rather light green, of medium size, pretty, clean and free from disease. Bloom approved size: exquisite buds, expanding to a large, full flower extremely rich in various tints of yellow; fragrant and one of the most abundant bloomers in the climbing family. Color varies according to season and latitude where planted from rich yellow to ochre, apricot, and fawn; stems liberal and flowers erect.

SARAH BERNHARDT. Climbing H. T. (Dubreuil, 1907)
This is one of the richest colored roses extant,—flaming scarlet-crimson—and holds its color. Of good climbing habit; foliage dark green, not closely set; buds long and pointed, opening to a single but large flower of vivid color with prominent yellow stamens. Not a profuse bloomer but extremely valuable.

SUNBEAM. T. (California Rose Co., 1908)
Of free and spreading growth; foliage clean and good; light green; bloom of good size, extremely well moulded and shaped, deep, full, retaining its handsome buds until bloom is well matured, when it opens prettily and in good form. Color, light yellow, with a touch of copper.

TAUSENDSCHOEN (Thousand Beauties) Pol. (Schwartz, 1906)
A hardy climber of merit for its class; flowers produced in clusters and in immense profusion; color, delicate pink changing to carmine as bloom expands.

UNCLE JOHN. T. (Miller & Hunt, 1904)
Rose pink; large and full.

VISCOUNTESS FOLSTONE. H. T. (Bennett, 1886)
Clean, well-shaped and producing bounteous supply of bloom at all times; flowers large, full, splendidly formed and of nice substance and fragrance; color, a delicate transparent flesh, deepening toward the center.

WM. R SMITH. T. (Shellum, 1908)
One of the good growers in the Tea family and a heavy bloomer. Color, soft salmon-pink shading to flesh and rose.

WM. ALLEN RICHARDSON. N. (Ducher, 1878)
A very pretty climber in size and good grower; color, copper yellow, flushed with carmine; flowers of good size.

WHITE MAMAN COCHET. T. (Cook, 1898)
A sport from that grand rose, Maman Cochet; style of growth and flower identical with its parent; full, firm, long, large buds: the color is a beautiful snow white, at times tinged with the faintest suggestion of blush.

WM. SHEAN. H. T. (A. Dickson & Son, 1906)
Purest red; petals shell shape, four or five inches long; immense size and perfect form and substance; very highly prized.

WILLOWMERE. Pernetiana or Austrian Briar (Pernet-Ducher, 1913)
Parentage, an unnamed seedling and Lyon. Hardy, free and perpetual bloomer; magnificent buds, large, well formed, cup-shaped flower, lavishy attractive in coloring; color, coral-red and shrimp-pink with deep yellow center; light green foliage, very striking.

WELSELEY. H. T. (Waban Rose Conservatories, 1905)
A seedling from Liberty crossed with Bridesmaid. We place it amongst our best Hybrid Teas. Of good growth, upright, clean; flowers borne on good stems; a free bloomer; flowers large, of great substance, and buds beautifully formed, opening to a grand full rose of silvery-pink color, hard to beat.

WHITE AMERICAN BEAUTY (See Frau Karl Druschki)

WM. NOTTING. H. T. (Soupert & Notting, 1904)
Color, bright—rosy cerise with deeper center. Bloom of good size, substance and nice fragrance; one of our grand good roses.

WINNIE DAVIS. H. T. (Nanz & Neuman, 1902)
A valuable garden sort, making a neat, strong and upright bush, wood and foliage healthy and clean; a profuse bloomer. Bloom of good size, buds extremely pretty, close and well formed; not so full as to be heavy and ungraceful, but graceful and charming; color, a clean and pretty apricot pink.

WHITE KILLARNEY. H. T. (Waban Rose Conservatories, 1909)
A sport from Killarney; style of growth identical with the parent—with the same magnificence, large, long, pointed buds which has made Killarney famous over the land—and borne on long, stiff stems; the color is pure white in most sections; with us locally, however, the edges of petals are touched with pink.

WHITE BANKSIA. Banksia. (Lady Banks, 1807)
Well known, distinct and valuable as a rapid growing climber; valuable for covering arbors, ragged hedges, walls, trunks of trees; thornless; flowers white and very small, but borne in great profusion.

SEE PRICE LIST, PAGE 23
XAVIER OLIVO. H. R.  
(Larcharme, 1864)  
One of the very darkest, rich velvety Hybrids. 
and as is the case with nearly all this class of 
roses, the bloom is very large, full and highly 
scented. Foliage extra large, robust and rich 
in color.

YELLOW BANKSIA. Climbing, Banksia  
(Damper, 1823)  
Same as White Banksia excepting color, which 
is yellow.

YELLOW PRESIDENT CARNOT  
(California Rose Co., 1910)  
A Bud Variation from Sou. de President Carnot  
—The New Yellow Hybrid Tea Rose

Bloom of the same superb style and texture 
as Carnot with a tendency to hold in bud longer 
and carry better; produced on perfect stems. 
The color is a solid, perfectly clean, live waxy 
lemon yellow.
ULRICH BRUNNER. H. R. (Levet, 1882)

One of the very best roses grown, and we regard it as the best all-round rose of its class. No other sort so handsome of growth, foliage, wood, etc.; free from disease; very upright growth and free practically from thorns. Color, very rich cherry-red, with no maroon or dirty purple about it; bloom large to very large; full, of the best substance and as fragrant as anything in the rose family; borne on very long and stiff stems. A valuable feature of this sort is that while a Hybrid it is one of the very few of this class that are continuous bloomers. Very much superior to American Beauty as a garden rose.

SEE PRICE LIST, PAGE 23
**PRICE LIST AND INDEX**

**PRICES QUOTED** are TRANSPORTATION PREPAID BY OURSELVES ON ORDERS FOR ONE DOZEN OR MORE ROSES. If less than one dozen ordered, buyer pays the transportation at destination—in which case they must in every case be forward by express; or we will prepay transportation if buyer adds to his cost of roses and includes with remittance as follows: One rose, 10 cts.; two roses, 16 cts.; three roses, 22 cts.; six roses, 35 cts.; above this number, but less than one dozen, 6 cts. each. Dozen rates do not apply on mixed varieties in any case.

**DOZEN AND HUNDRED RATES**—All 25 cent roses are $2.75 per dozen, or two dozen for $5.00. 100 for $20.00. All 35 cent roses are $3.50 per dozen, two dozen for $6.00, $25.00 per 100. All 50 cent roses are $5.00 per dozen; two dozen for $9.00; $32.00 per 100.—unless otherwise specified. Please take note that to be entitled to dozen rates, order must be for not less than six of a variety; 50 at 100 rates.

**EXpress CHARGES** are paid by us to railroad points or post-office points,—but not on stage routes—(when not carried by mail) and no charges paid beyond the limits of the United States, on terms above mentioned.

CLASSIFICATIONS AND ABBREVIATIONS

CHINA. Native of China.
CLBG. Climbing.
CHEROKEE. Native of China. Not entirely hardy.
RUGOSA. Robust growers and hardy. Natives of Japan.
PERNETIANA. Hardy except in severe climate.
AUST. BRIAR and HYBRIDS. Hardy.
H. N.—HYBRID NOISETTE. Rather more hardy than Noisette.

A complete index is printed on page two of the cover, which will enable one to readily refer to any desired variety.

ABBREVIATIONS. Following the name of each sort will be noted the abbreviation denoting the class to which the variety belongs. By observing these and reading the following descriptions of such abbreviations anyone may intelligently make selections for all sections and to suit any purpose.

BANKSIA. These varieties are tender and will not stand cold sections. Plants of slender, straight growth, free from thorns, with small foliage; flowers very small, but full and compact; violet scented.

B.—BOURBON. These are hardy, except in the coldest sections, and even in severe climates will stand well with winter protection. They are continuous bloomers and fragrant.

H. R.—HYBRID REMONTANT or HYBRID PERPETUAL. These are the hardiest of the rose class and very many of them will stand the coldest section of the country. They are generally vigorous and easy of culture, producing large flowers, fine in form and usually fragrant; many of them are more fragrant than some of the highly prized Tea sorts. While they are not all strictly perpetual or ever-blooming, no rose garden can be complete and satisfactory without a fair assortment of the best class of these roses.

H. T.—HYBRID TEA. These are produced from crossing Teas with Hybrid Perpetuals, and as a rule that are as free flowering and as constant bloomers as the Tea sorts. They are hardier than the Teas, but as a rule not so hardy as the H. R.'s. Many of this class, however, are particularly hardy and a very few very hardy.

T.—TEA. The Tea rose may well be taken as a synonym for all that is delicately beautiful. The most tender of the rose class; some varieties are of very delicate constitution and require especial care and treatment. As a rule they are inferior to the Hybrid Perpetuals in brilliancy of color and fullness of flower. This class is not suitable for garden culture in very cold sections.

NOI.—NOISETTE. A product of America, and obtains its name from Philipe Noisette, a florist of South Carolina. They are vigorous of growth, hardy as a rule, ever-blooming and have the general characteristics of the Tea rose.

POL.—POLYANTHEA. An interesting group from Japan. The foliage and flowers are usually small; flowers produced in panicles. They are hardy, ever-blooming, and many of the sorts are extremely charming. Valuable for borders, pot culture, etc. No pruning necessary.

WICH.—WICHURIANA. Natives of Japan. Hardy, of climbing or trailing habit; foliage always good.

REMEMBER! WE DELIVER ROSES TO YOU ANYWHERE IN THE UNITED STATES

TRANSPORTATION PREPAID, if order for one dozen or more.
